

EUROPEAN COMMISSION

**Multiannual Financial
Framework 2007-2013**

Fiche no. 94

14 February 2006

WORKING DOCUMENT OF THE COMMISSION SERVICES

Subject: Indicative breakdown of expenditure within individual headings and sub-headings, based on the European Council conclusions of December 2005

1. THE FINANCIAL FRAMEWORK 2007-2013 IN THE EUROPEAN COUNCIL CONCLUSIONS

The table enclosed in annex provides an indicative breakdown by expenditure heading over the period 2007-13, based on the European Council conclusions. The breakdown identifies the main multi-annual programmes, other programmes and recurrent annual actions, traditional agencies, and the available margins within each expenditure ceiling, with a format similar to the one provided in fiche no. 19 REV3 of April 2005.

The breakdown is provided as a contribution to the ongoing negotiations on the Inter-institutional agreement (IIA) on financial discipline and improvement of the budgetary procedure, in view of reaching an agreement between the European Parliament, Council and the Commission by the end of April.

2. OVERALL APPROACH TO REVISED DIVISION OF RESOURCES

The general methodology used to construct the enclosed breakdown consists of a sequence of successive steps as described below.

2.1. Expenditure specifically earmarked in the European Council conclusions

The European Council conclusions earmarked and gave specific indications for the financial envelopes of a number of programmes/actions, namely:

Earmarked expenditure

- (1) Funds for research in 2013 should be around 75% higher than in 2006 (§ 10 of the Council conclusions).
- (2) Specific amounts are earmarked for the decommissioning of nuclear plants in Lithuania and Slovakia (§ 11).

- (3) The breakdown of cohesion expenditure (§ 13 to 59) and the related transfers to heading 2 (see point 4 below).
- (4) The amounts to be transferred from the current structural funds to Rural development (EAGGF Guidance section) and to the European Fishery Fund (EFF) in heading 2 derive mechanically from the cohesion financial envelope. Specific amounts are earmarked for Rural development (EAGGF Guarantee section) (§63) and for the total amount of the EFF (§64).
- (5) The emergency aid reserve is set at € 221 million per year (§71).

Expenditure with specific indications

- (6) Due account will also be taken of some priority projects within the Trans-European Networks (§ 10).
- (7) A call upon the Budgetary Authority to ensure a substantial increase in the Common Foreign and Security Policy from 2007 (§73).

2.2. Other pre-determined expenditure

In addition to the expenditure specifically earmarked in the European Council conclusions mentioned in section 2.1 above, there are specific amounts included in the Accession Treaty of Bulgaria and Romania for the period 2007-2009 which have to be respected. They concern nuclear plant decommissioning (Bulgaria), institution building (2007 only) and budgetary compensations.

2.3. Ensuring minimum vital budgetary means for other planned actions

After taking account of the pre-determined expenditure mentioned under section 2.1 and 2.2 above, estimates have been made of the minimum indispensable amounts necessary to carry out ongoing or already planned programmes/actions for which no new legal base is required at present, but which will have to be continued anyway after 2006. That may be because they do not require specific legal bases like those of multi-annual programmes (e.g. agencies already created or being set up), or because they are part of Commission autonomous actions (e.g. information policy), or for which there have been specific orientations already been undertaken (e.g. EIF capital increase for 2007-2010). Account has also been taken of the expiration of certain actions.

The enclosed table distinguishes the financial envelopes corresponding to the traditional agencies within each expenditure heading, as appropriate.

2.4. Other horizontal constraints

Fourthly, to avoid awkward results and erratic time profiles, the following two constraints have also been introduced:

- No reduction is allowed between two successive years, unless that was already foreseen in the original Commission proposals.
- Where the Commission proposed reductions compared to the 2006 level, the proposed amounts are left unchanged.

2.5. Unallocated margin for each heading

The next step has been to foresee, as far as possible, prudential margins within each expenditure heading (except heading 1B). Whenever possible, the evolution of margins is increasing over time to reflect the fact that the degree of uncertainty tends to be higher the further projections extend into the future.

2.6. New legal bases not covered in the previous steps

Finally, the financial envelopes of the remaining spending programmes, for which the Commission proposed new legal bases as part of the 3 batches of legislative packages (July and September 2004, and April 2005), have been adjusted within each heading to reflect, as far as possible and after taking into account the constraints mentioned above, the relative priorities implicit in the Commission proposals.

2.7. Administration

The Commission administrative expenditure is included within heading 5 “Administration” which also covers the other institutions, pensions and the European schools, as in the current financial framework 2000-2006.

ANNEX

NB: All figures have been calculated using a 2% annual deflator between 2004 and 2013.

* The European Development Fund and the EU Solidarity Fund are not included in the financial framework.

(a) The 2006 level excludes the 2001 technical adjustment to the ceilings of structural actions heading whereby € 1026 million were shifted to the year 2006 to take account of the implementation conditions of structural funds. This affects all the transfers from the current structural actions to the new Heading 2.

(b) The 2006 figure does not include appropriations for BG/ROM nor the amount (€ 134 mn) proposed for 2006 by the Commission for the northern part of Cyprus.

(c) The breakdown for the year 2006 is based on the 2006 budget.
