Subject:	European Council follow-up: = Presidency Report on the implementation of EC conclusions

This report presents the state of play in implementation of priority orientations set out in the conclusions of the European Council. Where appropriate, next steps and Presidency intentions are also indicated.

This report is issued under the responsibility of the Presidency, in order to allow the General Affairs Council to fully play its horizontal coordination role and in order to inform preparations for the June European Council.

HORIZONTAL MATTERS

Following the agreement reached at the February EC on the MFF 2014-2020, work is progressing on the relevant legislative acts.

2. **European Semester** - *ongoing within Council*

As in 2011 and 2012, various formations of the Council have held discussions on the Annual Growth Survey. The IE Presidency has organised the process in light of the EC orientations of October 2012, focusing on improving dialogue and increasing ownership. The country-specific recommendations presented by the Commission end May will be agreed in Council in June and endorsed by the June EC.

ECONOMIC AND FINANCIAL AFFAIRS

3. **"Two-pack"** - *in force*

The "Two-pack" proposals were adopted in April and will enter into force in May 2013. A code of conduct on budgetary plans will be endorsed by the ECOFIN Council in June.

4. **TSCG** - *in force*

The Treaty on Stability, Coordination and Governance entered into force on 1 January 2013 and has already been ratified by 17 Member States. Ratification continues in the remaining signatory countries.

5. Deepening EMU - ongoing within Council

Work is in progress according to the roadmap set out by the December 2012 EC on four pillars: ex-ante coordination of national reforms; social dimension of EMU; contractual arrangements for competitiveness and growth; and solidarity mechanisms for Member States entering such contractual arrangements. Various Council formations held debates on these issues: EPSCO in February, ECOFIN in March and informal COMPET Ministerial in May. On 20 March 2013 the Commission adopted a Communication on ex-ante coordination of national reforms which could be followed by a legislative proposal in the coming months. It also adopted a Communication on an convergence and competitiveness instrument. A Communication on the social dimension of the EMU may be adopted before the summer. . Work will continue in preparation of the June EC. Discussions continue in the Eurogroup on an operational framework, including the definition of legacy assets, which would allow the ESM, once an effective single supervisory mechanism is established, to recapitalise banks directly.

6. Banking supervision - agreement reached

An agreement was reached in April with the EP on the EBA Regulation. Following national parliamentary scrutiny procedures, this should allow adoption of both the ECB Regulation and the EBA Regulation in June/July.

7. Bank resolution and deposit guarantee - ongoing within the Council

Work is progressing on the two Directives (BRR and DGS) within Council. A general approach on BRR is expected in May, which would allow the start of trilogues in parallel on the two Directives as early as June. The Commission is expected to present a new proposal for a single resolution mechanism in June; work will start promptly on this proposal, in order to allow its adoption during the current EP term.

8. Capital requirements - *agreement reached*

The European Council of 14-15 March 2013 concluded that progress towards a more integrated financial framework is urgently needed to restore normal lending, improve competitiveness and help bring about the necessary economic adjustments. The Council called for final agreement on the new rules for banks' capital requirements to be reached by the end of that month. An agreement was subsequently reached with the EP on the relevant Regulation and Directive (CRR and CRD IV) on 27 March 2013. Technical preparation is progressing at a rapid pace, in order to allow formal adoption and publication by end June 2013, which would result in the application of the new rules from 1 January 2014.

9. MiFID - *ongoing within the Council*

In 2012, the EC called for agreement on the proposals relating to markets in financial instruments, bearing in mind the objective of having a single rule book. Significant progress has been made within the Council. The only outstanding issues are access to trading venues and central counterparties and transparency. A general approach appears within reach in the coming weeks, allowing the start of negotiations with the EP in June.

10. Credit rating agencies - *adopted*

Agreement reached with EP, formal adoption completed in April.

11. Structure of EU banking sector - *awaiting proposal*

The December 2012 EC invited the Commission to follow-up to the proposals of the high level expert group on the structure of the EU banking sector (Liikanen report). Proposals are expected in the second half of 2013.

12. Single Market Act I - *ongoing*

Four priority levers of the SMA I were adopted: standardisation, unitary patent, venture capital and social entrepreneurship funds, dispute resolution for consumers; agreement has been reached on the accounting directive. A first reading agreement appears possible during the IE Presidency on the public procurement package and recognition of professional qualifications. Work progresses on the TENs proposals (TEN-E adopted) and on the CEF. Progress on the TEN-TELE guidelines has been stalled in light of the reduction in the budget. The Commission will publish a revised proposal at the end of May. This delay means that not all elements of the CEF will be agreed during the IE Presidency but substantial progress towards an agreement is expected. Work progresses also on the Posted workers with the objective to reach an agreement in Council in June. E-identification and signature could be concluded by end 2013. More detail on the status of each file is available in the annex. Energy taxation is reported separately below under point 32.

Following the call for progress in this area by the EC (June 2012), the CY and IE Presidencies re-launched discussions. The May COMPET Council is expected to adopt conclusions on better regulation, responding to both communications and inviting the Commission to present concrete proposals to implement its findings on the "Top Ten" most burdensome regulations for SMEs in June 2013. The Commission has started its internal mapping exercise and the first proposals for simplification and reducing regulatory burden under its regulatory fitness ("REFIT") programme are expected in the autumn.

Following the state-of-play report adopted at the December 2012 ECOFIN Council, the IE Presidency organised bilateral meetings with all Member States with a view to submitting to the high level WP a note on the approach to the organisation of future technical work in this area. This approach was agreed by the High Level WP in March and a compromise text on the Common base was circulated by the Presidency in April.

This is mentioned as a priority measure also in the Compact for growth and jobs. The IE Presidency firmly intends to accelerate work in the light of the May EC orientations in this regard. Therefore the Directive and the negotiating mandate for third countries have been placed on the Agenda of the May ECOFIN with a view to reaching political agreement on the former and adoption of the latter file.

32. Energy taxation - ongoing within the Council

40. EUROSUR - *trilogues ongoing*

Their examination is underway at working party level.

FTA negotiations with Thailand were launched on 6 March, and with Japan on 25 March. Negotiations with Canada remain in their final stages. The Commission is considering the most opportune time to progress negotiating directives for an investment agreement with China. This is in the context of preparing for an EU-China summit later this year.

44. Trade agreements with neighbouring countries- *ongoing*

Negotiations for a DCFTA with Morocco were launched on 1 March 2013. Scoping exercises are underway with Tunisia and Jordan. The Presidency remains committed to the EC objective of finalising DCFTAs with the Republic of Moldova, Georgia and Armenia and, under the terms of the Council Conclusions of 10 December 2012, signing the agreement with Ukraine, by the time of the Eastern Partnership Summit in Vilnius in November.

Current status: General approach on the whole package (3 Directives) reached in December.

Trilogues ongoing since March, latest on 23 May.

Planned steps: Next trilogue on 28 May. Trilogues and technical meetings with the EP take place in very tight succession and the Working Party and COREPER are constantly involved.

Comments: The EC deadline was missed, including due to the EP timetable. The Presidency is investing a maximum effort; given the intensive work, a first reading agreement by the end of the IE Presidency appears possible.

Mutual recognition of professional qualifications

EC deadline: December 2012.

Current status: Coreper and gave a mandate for negotiations with the EP on 1 March. Trilogues ongoing, latest on 24 April.

Planned steps: Next trilogue on 29 May. The IE Presidency aims to reach a first reading agreement on the file.

Planned steps: Trilogues continue (next one on 15 May) with the aim of reaching a first reading agreement during the IE Presidency.

Comments: The EC deadline was missed due to delays, including the horizontal negotiations on the MFF. A first reading agreement during the IE Presidency is dependent on EP consent on the MFF and agreement on the TENs guidelines for Transport and for Telecoms. Consistency will have to be ensured with the three TEN proposals: Transport, Energy, and Telecommunications.

Trans-European networks (energy)

EC deadline: December 2012.

Current status: Published, Regulation (EU) No 347/2013 of the European Parliament and of the Council of 17 April 2013 (*OJ L 115, 25.4.2013*).

The Commission has decided to revise its proposal in light of the European Council conclusions of February 2012 on the MFF and is expected to publish this revised proposal at the end of May 2013.

Comments: Consequently, the EC deadline was missed and while work will be progressed, an agreement will not be possible during the IE Presidency. An agreement during the LT Presidency should be possible. Consistency will have to be ensured with CEF.

EC deadline: December 2012.

Current status: The proposal was adopted by the Commission in October 2011. A general approach was reached at March 2012 TTE Council. The EP TRAN committee vote took place on 18 December 2012.

Planned steps: Trilogues started on 20 February with the aim of reaching a first reading agreement during the IE Presidency. Next trilogue on 29 May.

Comments: The EC deadline was missed due to EP timetable but agreement during the IE Presidency appears possible. Consistency will have to be ensured with CEF.

Posted workers

EC deadline: December 2012.

Current status: Progress reports were presented to the EPSCO Council in June and December 2012. Coreper considered the most sensitive issues (Articles 9 and 12) in March and again in May on the basis of IE Presidency compromise text.

Planned steps: The EP EMPL Committee vote is foreseen end of May 2013. The IE Presidency aims to reach a general approach at the June EPSCO Council.
