

IX. Decisions

Parliamentary Resolution 11/2016 (VI. 17.)

on the requirements for the European Union's trade and investment agreements with third countries*

1. The National Assembly calls on the Government to firmly and consistently represent the view in decision-making and preparation for decision-making activities with the national governmental participation of the institutions of the European Union in order that the Comprehensive Economic and Trade Agreement (CETA) between the European Union and Canada, the Transatlantic Trade and Investment Partnership (TTIP) to be established between the European Union and the United States, and the Trade in Services Agreement (TISA) to be established within the framework of the World Trade Organization (WTO) classify as mixed international agreements. For their creation, it is required to have in each member state a ratification process that is in accordance with their respective constitutional rules and that the conventions cannot enter into force temporarily as long as EU Member States do not ratify them.
2. The National Assembly calls on the Government not to support the creation of a free trade agreement that threatens the current level of environmental and health protection, food safety, human rights and labour law guarantees, and that contains anti-democratic dispute settlement procedures.
3. This resolution shall enter into force on the day following its publication.

László Kövér

Speaker of the Hungarian National Assembly

Mirkóczki Ádám
Parliamentary notary

Dr. Tiba István
Parliamentary notary

* The National Assembly adopted the resolution on 13 June 2016.
