**REPORT FROM THE COMMISSION TO THE EUROPEAN PARLIAMENT, THE
COUNCIL AND THE COMMITTEE OF THE REGIONS**

**on the application of the Regulation (EC) No 1082/2006 on a European Grouping of
Territorial Cooperation (EGTC) as amended by Regulation (EC) No 1302/2013 as
regards the clarification, simplification and improvement of the establishment of such
groupings**

{COM(2018) 597 final}

1. METHODOLOGY OF ASSESSING THE APPLICATION OF THE AMENDED EGTC REGULATION

To gather the necessary data in order to assess the application of the amended EGTC Regulation, the European Commission worked in close cooperation with the Committee of the Regions, while it was preparing the 2017 EGTC Monitoring Report, as well as commissioning a specific study to assess the questions and indicators set out in the Annex to the future delegated act on the EGTC implementation indicators. For answering the assessment questions – besides the indicators, the following additional information from several sources and data were used to draw up this Report.

Firstly, this Report is based on the questionnaires sent to EGTCs and approval authorities for the data collection of the EGTC monitoring report 2017. These questionnaires contained annually posed questions and additional questions focussing on relevant assessment indicators.

Secondly, additional data on EGTCs, e.g. their current membership structures, have been collected through online sources, including EGTC webpages. This complements data for EGTCs that did not answer the questionnaire. It was furthermore used to check the robustness of the data received from EGTCs by testing samples and checks on data incoherencies provided by EGTCs.

Thirdly, a literature review was conducted that focused in particular on a) legal issues raised by legal experts and b) experience gathered from EGTCs that can shed light on the application of the amended EGTC Regulation.

Fourthly, additional interviews were carried out with key persons, i.e. EGTCs' experts etc. These interviews addressed specific questions of the assessment for which no or little other information was available.

The outcome of the analysis was discussed with relevant experts of the Commission as well as the Committee of the Regions.

3. COMPREHENSIVE LIST OF ALL INDICATORS

Indicator	Unit	21 June 2014	31 Dec 2017
Effectiveness			
1. Conformity of MS' national rules with the Regulation¹	No. of MS with adopted implementation rules the amendment	-	23
2. Conformity of MS' national rules with Regulation	The degree of detail laid down in national implementation rules, including their amendments, differs considerably. National implementation rules are subject to national considerations only, no lack of conformity with the EGTC regulation could be identified. This does not exclude possible overregulation.		
3. Increase of EGTCs set-up	Number of EGTCs	48	68
4. Increase of members in existing EGTCs²	Number of EGTCs	-	11
5. Participants' assessment of improvement of the quality of cooperation as a result of the EGTC instrument	Improvements in intensity and quality of cooperation including better funding access, more visibility and involvement in decision-making, higher ranking of cross-border issues, multi-level governance approaches and facilitation of cross-border processes		
6. Increase of members per category²	Number of types of EGTC members	628	829
MS		22	22
Authorities at national level		3	4
Regional authorities		78	117
Local authorities		509	640
Public undertakings		6	13
Undertakings entrusted with services of general economic interest		0	11
Associations of bodies belonging to one or more of these categories		8	17
National, regional or local authorities, or bodies or undertakings, equivalent to those above from Third countries		0	5
7. Number of EGTCs involved in organisation of cross-border services³	Number of EGTCs according to categories	-	10
Health		-	1
Education and training		-	0
Environment, energy, nature protection		-	1
Transport		-	5
Research		-	1
Other		-	2

Efficiency			
8. Costs for setting-up an EGTC compared to comparable structures under international or national law	Euro per EGTC	-	n.a.
9. Costs for the functioning of an EGTC compared to comparable structures under international or national law	Euro per EGTC	-	-
10. Approval procedure for EGTCs compared to the approval procedure for comparable bodies under international or national law	The few responses received indicate that approval procedures are similar. The possibility for tacit approval was not appreciated by the vast majority of authorities.		
Relevance & Sustainability			
11. Use of EGTC for the implementation of a cooperation programme (as MA)	Number of EGTCs	1	2(3) ⁴
12. Use of EGTC to implement part of a cooperation programme (e.g. sub-programme, Small-project-fund; people-to-people projects; ITI, JAP)	Number of EGTCs	-	20 ⁵
Small-project-fund		-	4
ITI		0	7
JAP		0	6
CLLD		0	4
S3 strategy		0	5
13. Use of EGTC to implement an operation (according to sub-categories of different funding sources)⁶	Number of EGTCs	-	36 ⁵
Operation under a cooperation programme (CBC, transnational, interregional)		18	33
Operation supported by the EU through the ERDF under an Investment for Growth and Jobs Goal programme		-	2
Operation supported by the EU through the ESF		3	1
Operation supported by the EU through the Cohesion Fund		1	0
Operation supported by the EU through the EAFRD		1	3
Operation/project supported by the EU outside Cohesion Policy programmes (CEF, Erasmus(+), Horizon 2020, etc.)		1	10
14. Use of the different options for the choice of applicable law	The targeted clarification has not been achieved but the amendment has created new ambiguities as well as possibly unnecessary requirements.		
15. Use of own staff compared to delegated staff	EGTCs can usually specify the reasons why they prefer one solution or another for their staff. No difficulties have been reported since amendment of the regulation.		

16. Motivating factors in choosing to set-up an EGTC, for those bodies who have formally entered into an EGTC agreement	No EU wide data is available on individual motivating factors. Studies suggest that they are in line with achieving typical benefits of EGTCs. Benefits related to joint forces can be crucial motivations.		
17. Probability that an EGTC is to be continued after its duration has come to an end	Only a few EGTCs have a defined dissolution date. One of these will be dissolved since its tasks are not relevant anymore (it has been replaced by a new EGTC). For all other EGTCs no assessment can be made currently.		
18. EGTCs registered without performing activities	Number of EGTCs		
	The few EGTCs without any or only very few activities tend to suffer from a lack of both human and financial resources. There seems to be a critical threshold of resources necessary to successfully run an EGTC.	-	3
EU added-value			
19. Number of territorial cooperation structures and networks which would not have been set-up without the EGTC instrument		-	-
20. Advantages of a legal body set-up under EU law compared to (other) legal bodies existing under international or national law	Advantages have several dimensions such as better decision-making, long-term strategy and objective development with cross-border focus, higher independence combined with legal personality, joint forces for obtaining a critical mass and better visibility. Together these contribute to illustrating the European added value of the EGTC instrument		
Simplification			
21. Average time for setting-up an EGTC – phase 1	Months	20	19 ⁷ / 19 ⁸
22. Average time for setting-up an EGTC – phase 2	Months	18	17 ⁷ / 11 ⁸
23. Number of tacit approvals	Number of tacit approvals		
	Approval authorities seem to prefer to use the explicit approval. If no additional documents are requested, this implies that the six months period is reduced.	-	-

‘-‘ indicates not relevant or not available.

¹ Not all approval authorities replied to the information request in 2017. The indicator is based on the responses for 2016 and 2017.

² Not every EGTC provided sufficient and reliable data for this question at the cut-off date. Data includes all 68 EGTCs as of 31 December 2017 based on additional data collection. Data for 21 June 2014 refers to the 48 EGTCs at that point in time. Data for 2014 is indicative as changes to EGTC member structures are not always transparent.

³ Indicator renamed from "Increase of services provided as a result of EGTCs" due to lack of reliable data in line with the original formulation.

⁴ Both EGTCs refer to the Interreg programmes of the Greater Region, i.e. the inactive INTERREG "Programme Grande Région" EGTC founded for the 2007-2013 period and the now active EGTC for the Interreg VA programme 2014-2020.

⁵ An EGTC for which more than one of the sub-categories applies is counted only once.

⁶ The numbers for the baseline in June 2014 refer to projects of the 2007-13 programming period and are not verified, due to inconsistencies in the 2014 EGTC monitoring report.

⁷ Based on all 41 EGTCs providing the information, since introduction of the EGTC instrument.

⁸ Based on 13 approved EGTCs providing the information, approved after 21 December 2014.
