

Your Excellency,

This letter has been distributed to the leaders of EU and NATO countries and partners as well as international organizations - EU, NATO, UN, CoE, and OSCE.

We, Georgian citizens and expats, are immensely grateful for the solidarity and political support demonstrated by our international partners towards Georgia in such critically important times. Evaluation of October 26 parliamentary elections conducted by OSCE/ODIHR and other international organizations clearly shows that these elections did not meet the standards of free and fair electoral process. Furthermore, the systemic violence and persecution perpetrated by the Georgian authorities, as well as affiliated militant groups, has gone unpunished. The sheer scale of the crackdown can amount to a crime against humanity and is undoubtedly a sign of the authoritarian state that the Georgian dream party is attempting to create in Georgia.

The so-called Government of Georgian Dream party has purposefully distanced itself from the West and demonstrated multiple times the willingness to give up Georgia's national interests and its resources in favor of authoritarian countries such as Russia, Iran, and China, simply in order to seize and maintain power and wealth.

The Georgian Dream is relentlessly undermining free speech, imposing new laws and regulations each passing day. The situation we find ourselves in, is no longer about fighting the decline of democracy but very clearly about the Georgian people's struggle against active efforts of establishing autocracy, which is driving our country towards a catastrophe.

Georgian Ambassadors working in the countries of NATO and EU possess relevant professional competence to know better than anyone that Georgia's European and Euro-Atlantic integration process is suspended only due to the political decisions of the Georgian Dream. Unfortunately, those diplomats not only fail to fulfill their professional duties but also show a blatant disregard for Georgia's national interests and security. They continue to neglect Georgian people's historical aspiration towards Euro-Atlantic integration, written into the Georgian constitution and confirmed through open popular support over many years. As such, any actions by state officials or civil servants, including diplomats, that undermine Georgia's Euro-Atlantic path, are unconstitutional and hostile towards the will of Georgian people.

With their disgraceful silence on the facts of torture and repression of Georgian citizens, Georgian Ambassadors are directly participating in strengthening the violent regime of the Georgian Dream and are consciously pushing our country into isolation and impoverishment.

Therefore, we, Georgian citizens and expats, call on the international community to enhance political pressure and strengthen sanctions on the violent regime of the Georgian Dream, as well as on its representatives in the diplomatic service. We ask you, within the framework of your legislation and mandate, to restrict future employment opportunities within your government as a consultant, adviser, or in any other position as well as within international organizations of which your country is a member, for the current de facto Minister of Foreign Affairs of Georgia, her de facto deputies, and all Georgian ambassadors to the European Union and NATO member states listed in the attachment. The actions of these individuals directly serve to strengthen authoritarianism in Georgia. We believe that these individuals are not only unacceptable to Georgian society but also pose a real danger to any country or international organization they may wish to work for in the future.

Petition signed by:

- 1) Erekle Tsakadze
- 2) Nana Quparadze
